

Michael R. Fatica is Datatrac's Chief Information Officer and has worked with Datatrac since 2001. For over 10 years Mr. Fatica has worked directly with Datatrac's CEO to evolve the company's platform to modern business intelligence systems. Michael has operated an independent IT consulting firm for over 15 years, working with over 500 companies in all areas of technology application. In that time he has created multiple technology startups, including MetaLocator.com and recently VirtualQuote.com. His proprietary Web site software products have been purchased by over 1600 companies in 62 countries around the world. Michael was awarded an engineering degree in Computer Science from the University of Wisconsin - Milwaukee in 2001. Michael has volunteered extensively, serving as a board director for KidsTek Inc, an after-school technology program for underprivileged youth and 3RTech, a nonprofit focused on computer hardware recycling. His ability ranges over a wide array of technologies with a focus on Web-based data-intensive applications. Michael is a highly experienced software engineer, fluent in hundreds of programming languages, APIs and platforms.
